FULL-STACK WEB DEVELOPER

OBJECTIVE

Full-stack web developer with over 1.5 years of professional experience building and maintaining web applications on both frontend and backend. Passionate about clean code, scalable architectures, and continuous learning. Currently seeking full-time opportunities in Germany where I can contribute to impactful projects, grow within a collaborative team, and further develop my technical expertise.

SUMMARY OF QUALIFICATIONS

- **Full-Stack Development:** Strong experience with Vue.js, Laravel, MySQL, and MongoDB
- **Frontend & UI Development:** Building modern, responsive interfaces using Tailwind CSS and Bootstrap
- **Version Control**: Git, GitHub, GitLab
- **Agile Methodologies:** Experience working in Agile/Scrum environments with sprint-based development
- **AI-Assisted Development:** Leveraging AI tools to improve productivity, automation, and code quality
- **DevOps Fundamentals**: Basic knowledge of Linux commands, Nginx configuration, and application deployment
- **Languages:** English, French, Arabic, Deutsch
- **Office Tools:** Microsoft Word, Excel, PowerPoint, Outlook
- **Soft Skills:** Strong collaboration, time management, and team leadership abilities

PROFESSIONAL EXPERIENCE

Yool Education | **Full-Stack Web Developer** **(Intern → Pre-hire Internship → Full-Time Contract)**

March 2024 – Present | Agadir, Morocco

- ✓ Designed, developed, and maintained a large-scale **education management platform** using **Laravel, Vue.js, MySQL**, and **REST APIs**.
- ✓ Built and scaled an **interactive forum system** with posts, comments, voting, and **real-time notifications** using **Vue.js and Pusher**.
- ✓ Developed a **content and user management system** for administrators, including roles, permissions, and dashboards.
- ✓ Implemented **multiple payment methods** (bank transfer, CMI, Binga) and secured payment workflows with real-time admin alerts.
  - ✓ Created and maintained REST APIs for:
  - ✓ Admin mobile application (platform management)
  - ✓ Student mobile application (courses, payments, forums)
- ✓ Integrated **Altissia language learning platform** using **SAML 2.0** for secure authentication and progress tracking.

FULL-STACK WEB DEVELOPER

- ✓ Automated **student attendance reports**, timetable generation, and session management.
- ✓ Developed a complete **exam management module** (CRUD, filters, reports, real-time results).
- ✓ Refactored authentication flows (registration, login, password reset) and restructured the codebase following best practices.
- ✓ Improved **UX/UI** by redesigning key interfaces using **Css / Bootstrap**.
- ✓ Enhanced **system security, stability, and performance**, including API protection and route security.
- ✓ Implemented **email, Whatsapp and SMS notification systems** for attendance, delays, payments, and reminders.
- ✓ Worked in an **Agile environment**, collaborating closely with product and administrative teams.
- ✓ Worked in a **well-organized Agile team**, using **GitHub for CI/CD pipelines** and **Jira** for task tracking and sprint management.
- ✓ Managed **Linux-based servers**, performing deployments, basic configuration, and troubleshooting.
- ✓ Integrated **real-time, live interactive learning features** enabling direct interaction between students and teachers.
- ✓ Implemented **partner management and voucher code systems** for promotions and access control.

COLOPIG | **Freelance Full-Stack Web Developer**

October 2024 – Present | Remote

- ✓ Designed and developed a **complete pigeon management platform** with a **full-featured admin dashboard**.
- ✓ Built advanced modules for **pigeon lifecycle management**, including profiles, pedigrees, ownership, and history tracking.
- ✓ Implemented a **secure multi-payment system** supporting **bank transfer, PayPal, and CMI**.
- ✓ Developed a **token-based system** for feature access and platform usage.
- ✓ Designed and integrated **subscription plans** with secure payment workflows and feature-based access control.
- ✓ Integrated **AI-powered tools** to automatically generate **pigeon pedigree data**, improving accuracy and efficiency.
- ✓ Built an **orders and payments management dashboard** for administrators with real-time status tracking.
- ✓ Implemented **automated notifications** via **email, SMS, and in-app alerts** for users and admins.
- ✓ Designed a **modern and responsive UI/UX** using **CSS and Bootstrap**.
- ✓ Managed **Linux servers**, deployment processes, and basic infrastructure configuration.
- ✓ Set up and controlled **CI/CD pipelines using GitHub**, ensuring reliable deployments.
- ✓ Applied **best practices in code architecture, database design, and security** to ensure scalability and maintainability.
- ✓ Integrated multiple third-party tools and services to extend platform functionality.
